OUR old time friends, "Squire Joe. W. Rock and wife, of Howard county, were in Keytesville on the 16th inst., having come to consult Dr. Dunbar in reference to Mrs. Rock's eyes, one of which has given her much trouble for several years. The doctor would not promise a permanent benefit except to stop the growth of the tumor over the ball. She will most likely return in a few days for treatment.

IT seems that Judge O. F. Smith has determined to leave us. He has sold his town property to John A. Lee and will himself go to West Plains in Howell county where he expects his family to join him in the early autumn. Of course we in common with all of Judge Smith's neighbors regret to lose him and his interesting family from among us; but we all want him to do well. He thinks the change is for the better, and we bow to fate; in the mean time our good wishes follow him and his.

As we stepped into Dr. J. E. Dunbar's office at the Wheeler House last Wednesday morning, he called our attention to a beautiful floral tribute which was presented him by Miss LUTIE WILSON. Miss LUTIE was one of the doctor's patients during his visit to Keytesville four years ago, and was afflicted with a severe case of granulated lids, and a slight opacity of the cornea of each eye, and she was entirely cured under his skillful treatment. The doctor was as proud of the boquet as it was possible for him to have been, as it spoke volumes for the appreciation Miss LUTIE feels for the doctor's masterly skill as an oculist. He says he would not have felt half so

THIS little picnic given by the young ladies on Thursday afternoon, on the banks of the Muscle Fork, near the mill, was greatly enjoyed by the participants. A nice lunch was served and the time passed pleasantly until the shades of evening suggested the thought of home, when all returned happy, contented and tired.

WE regret to learn that Mrs. L. M. Applegate has almost entirely lost the sight of one eye, caused from paralysis of the optic nerve. She went to Dr. Dunbar for treatment but he could give her no encouragement. She will go to St. Louis Saturday to consult oculists of that city and where, we trust, she may find relief.

NEWS came to town Thursday morning that a shooting scrape had occurred at the poor farm on the night previous between Dr. G. W. Johnson, one of the inmates, and John Burnett, the keeper, in which it was supposed that Johnson was mortally wounded. Not knowing the particulars we forbear to make comment, as by so doing we might prejudice one or the other of the parties.

Mrs. JOHN WARD got a cherry seed into one of her ears last Monday. Her mother-in-law, Mrs. M. A. Ward made an unsuccessful attempt to remove the seed by the use of a hair-pin, and it remained in her ear about twenty-four hours. During this time her suffering was intense. On Tuesday evening she went to Dr. J. E. Dunbar, the celebrated eye, ear and catarrh specialist, who has been in our city for the past week, and he, assisted by Dr. C. T. Holland, finally succeeded in extracting the seed. Mrs. Ward is of a very nervous temperament, and the pain being so severe during the doctors efforts to remove the seed, it was necessary that she be placed under the influence of chloroform. One of the most remarkable features was that about seven ounces of this drug were administered before Mrs. Ward was sufficiently under its influence to admit of the removal of the seed. She is at present doing well and it is thought the matter will result in no serious.

ED. TURNER, a youth of sable hue, was brought down from Brunswick by Oliver Scott last Friday, and lodged in jail. It seems that on Wednesday night previous, Turner had engaged to carry a sack of corn from the depot to one of the up-town hotels for a farmer named John Stokeman, who lives in the Missouri river bottom about ten miles south of this place and who was on his way to Conception, Mo. On their way they stopped at a saloon and took several drinks of whiskey together. During the night Stokeman was robbed of about \$12. The negro was arrested on suspicion and put in the calaboose at Brunswick. He was tried before Recorder Cunningham on the following day, where Arthur Outlaw and Ora Ford, two negro boys testified that Turner had tried to induce them on the previous evening to assist him in robbing Stokeman, stating that the old man had plenty of money. The boys said that they would have nothing to do with the affair. The evidence was sufficiently strong against him for the recorder to bind him over in the sum of \$400 for his appearance at the October term of the circuit court. He could not give bail and in consequence was placed in jail.

Happy Thought in the Night.

For years Mr. Jas. R. Ackley, of 163 west Fayette street, Baltimore, had suffered with neuralgia so that he could hardly sleep. But he writes, "One night I was suffering very much, and the thought struck me that Brown's Iron Bitters would do me some good and perhaps cure me. It was a happy thought, and to my great joy it has entirely cured me after using two bottles. After three months I had no return of symptoms. I cheerfully recommend it as the best tonic I have ever used." Neuralgia sufferers, take the hint.

What The Courier Would Like To Know

If Ed. wasn't mighty glad when Will left town?

If "Ralph" is really the daisy that somebody thinks he is?

If W— and B— actually have up as terrible a case as they seem to have, and if anybody else is jealous?

The first lawn party of the season was in full blossom at the residence of W. C. Gaston last Friday evening. The yard was nicely lighted with torches and chairs placed here and there for two, affording opportunities to woo. The evening was at first ominous and it was feared for a time that there would be rain but the sunshine of enjoyment chased away the clouds and all drank deep of the pleasures of social converse until about half past ten o'clock, when supper was announced. A number repaired to the tables to partake of the palatable luxuries awaiting them, consisting of ices, cakes, nuts, fruit, etc. The ices were made by Mrs. D. B. Kellogg and Mrs. J. P. Tippet and comment is unnecessary as all know of the palatableness of their

Esway, Lucy White and Linnie Gaston, and were all that the most fastidious epicure could desire. The young men who gave the party are first under obligations to Mr. and Mrs. Gaston their genial host and hostess for the use of their house and yard and the numerous courtesies received at their hands. Messrs Ed Applegate and Geo. Dewey have the honor of being the instigators of the affair, and have the satisfaction of knowing that it was a brilliant success.

DR. J. E. DUNBAR, of Terre Haute Ind, has been in our city for the past week treating diseases of the eye, ear, and catarrh. The doctor is no stranger to many of our people, as he was here four years ago and successfully treated a number of patients who were afflicted with defective eyes. During his stay here he established a most enviable reputation and won many golden opinions from those who received his treatment who gladly testify to his merits as an oculist. Since the doctor's last visit to Keytesville he has turned his attention to diseases of the ear and catarrh troubles and is meeting with excellent success in these specialties too. His frank and open manner and positiveness with which he deals with his patients, never giving hope unless there is hope and never asserting positively that a course of treatment will be successful unless he has ample reasons to believe such is the case, show him to be a specialist who is at one and the same time careful of his reputation and a conscientious gentleman. He has been candid with patients during his present stay in Keytesville, and is giving splendid satisfaction. He will leave for Paris Monroe county, next Thursday and remain there twelve days, at the Glenn House, where those who are inconvenienced from bad eyes, defective ears or catarrh troubles could not do better than consult Dr. J. E. Dunbar, who stands upon his reputation which speaks for itself. Among those who are receiving treatment from the doctor we notice the following: Miss Francis Welch of Muscote Fork, daughter of James M. Welch, has been receiving treatment for catarrh trouble. Mr. A. C. Stephenson of Chrbaneville, had a pterygium removed from both his eyes, the writer having assisted the doctor by holding his head. The operation was performed in a few minutes by the use of a cocaine without pain. W. D. Vaughan, of this city is also under treatment for catarrh troubles. Martin Ehrhardt a farmer living near Salisbury, is being treated for impaired vision and catarrh. Miss Ella Wheeler daughter of D. N. Wheeler is being relieved from the inconveniences of catarrh. Miss Francis Laubhoff, of Indian Grove, is under treatment for catarrh. Frank Fryson was in for treatment his troubles being catarrh and eye disease. J. W. Rock, of near Glasgow was up to interview the doctor concerning his wife's eye troubles. J. S. Smith of Moberly, and Joseph Mackay of Paris, came over from Huntsville with the doctor and are delighted with the improvement they are making under his treatment for their eyes. Mr. Smith was in St. Louis nine months and has received more benefit from Dr. Dunbar in fourteen days than he derived in his nine months stay in St. Louis, and spent over \$800 while there. Miss Annie McCarty of near Salisbury, and John Palmer of Pe-dee, had an operation performed on their eyelids for entropion which promises to be of great benefit to them. Many have been turned away whom the doctor has frankly told he could not benefit and did not want their money unless they could derive an improvement in their condition from his treatment. New patients are coming every day and while the doctor is wonderfully crowded, he does not slight any of his patients and his success is abundant and brilliant.

Thousands Say So.
